

Industrial durable

AUTOID Pad Air-5G

A new generation of 5G ultra-thin industrial tablet

Typical application scenarios

Quality inspection

Production line inspection

Production control

Vehicle applications

Why Choose SEUIC AUTOID Pad Air-5G?

5G Powerful CPU

- 7nm process technology, octa-core chip with a 25% increase in CPU performance
- The network transmission speed is more than 10 times faster than 4G

Abundant Accessories

- Bracket series accessories expand fixed applications
- Shoulder straps and hand strap accessories make mobile application more convenient

10.1-inch Full Screen

- 10.1 inch 800nit bright screen(optional), strong light viewable

Ultra-light and Slim Body

- 11.6mm slim design
- 735g lightweight body

High protection

- IP65 sealed
- 1.2m marble drop
- US military standard MIL-STD-810G shock and vibration resistance standard

Long battery life

- 10140mAh battery (typical)
- Support high intensity continuous work for 12 hours

More comfortable

- 4096-level pressure-sensitive capacitive screen (optional)
- With a stylus, signatures handwriting are clearer

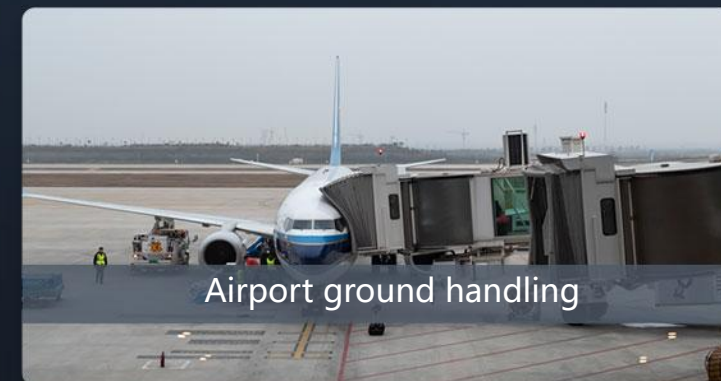

Automobile manufacturing assembly line

28% increase in information transfer efficiency

Equipment inspection and maintenance

0 stuttering, smoother operation

Airport ground handling

Stable signal with no disconnection, low latency

5G Empower and drive efficient productivity

- 5G dual-carrier aggregation technology and MediaTek 5G UltraSave technology combine to bring a perfect experience of strong performance and low power consumption
- Enjoy 5G speeds that are more than 10 times faster than 4G network transmission speeds, with 0 waiting during operation

Android 12 system, longer life cycle

- Simplify interaction and reduce CPU power consumption by 15%; further improve system security and privacy
- Support global, European, Russian version of GMS

7nm process technology

2*A76 2.2GHz
6*A55 2.0GHz

Performance improvements

25% ↑

Octa-core performance

Dual-core Mali-G57 GPU

Performance improvement

89% ↑

Antutu performance score
300,000

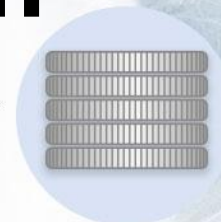

Comprehensive performance improvement

50% ↑

More than 5G, Lighter, Thinner and More Durable

Ultra-light and ultra-thin, 0 pressure for mobile operation

One dollar coin

11.6mm
Slim design

735g
Lightweight body

Thin but it is all "Hard Power"

High protection and hardness

- Splash and dust resistance: IP65 sealing grade, resistant to water jets and dust
- Drop resistance from heights: 1.2m drop resistance on marble, withstands accidental drops better
- Vibration and shock-resistance: Meets US military standard MIL-STD-810G for shock and vibration
- * Optional silicone protective cover and tempered glass film, the drop level can be increased to 1.5m after matching

Ultra-durable and rigid

- Integrated whole-machine design, using UL certified frame material, with multiple internal reinforcements; the device is lightweight, thin, and durable
- Designed lifespan of the main unit is 8-10 years, reducing repetitive procurement
- Wide temperature design, supports use from -20° C to +50° C

Large battery with fast charging

Support unplugged high-intensity continuous work for 12 hours

Extra-large capacity

10140mAh battery (typical),
escort long-term operators

Battery safety

Battery health monitoring,
support counterfeit battery
detection, ensure charging
safety

Powerful fast charging

Support QC3.0 fast charging
and 30W PD fast charging,
capable of charging over
80% in 2 hours

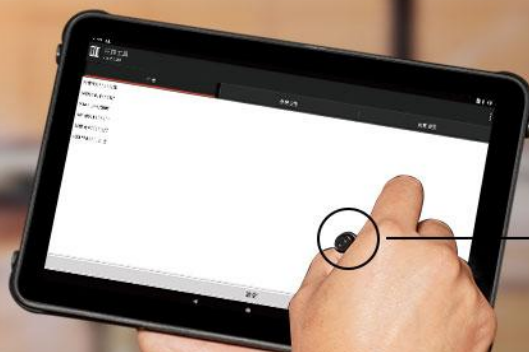

LPDDR4X and UFS2.2 technology High-speed storage, download, install with 0 wait

- RAM: Equipped with LPDDR4X memory particles, the memory speed can reach up to **4266MHz**
ROM: UFS2.2 high-speed flash memory, sequential write speed up to **500+MB/s**. Extraction rate increased by **2.5 times**, downloads/installations completed in seconds.

More than 5G More Human-Machine Interaction that Understands You

10.1-inch high-definition bright screen / pressure-sensitive touchscreen + stylus

- 800nit high-brightness screen (Optional): Clear and visible even in outdoor strong light, snow, and other high-brightness conditions
- 4096 level pressure-sensitive screen (Optional): With stylus for clearer signature writing

- 10.1-inch IPS screen, resolution 1920*1200, delicate colours, clear display of large screen interface
- Capacitive 10-point touch, supports gloved/water touch

More than 5G
More Features
More Extensions

Multiple data collection capabilities for all operational needs

Barcode scanning:

- High scanning performance with Code128 barcodes as small as 3 mil
- Professional decoding allows for easy recognition of DPM, oil, film, bend, and other types of difficult-to-read barcodes.

Bend barcode

Air bubble bags/films

Defaced barcodes

Sub-silver material

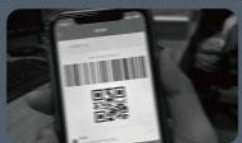

Pleated barcode

High Density Barcodes

Broken barcode

On-screen barcode

Metal DPM

High Density Barcodes

Fingerprint recording (optional):

- Support live fingerprint detection and fingerprint recording

NFC identification:

- Support ISO15693、ISO14443A/B
- Support ID card reading

Camera photos:

- With photo function, meet the needs of job scenes, such as taking photos and collecting samples

A wide range of accessories to double your tablet's performance

Power Adapters

USB Data Cable

Hand Strap

(Lightweight hand strap for secure, non-slip grip)

(Standard)

A wide range of accessories to double your tablet's performance

30W Power
Adapter

Double TYPE-C
Cables

Screen Protector

Touch Capacitive Pen

Silicone Case

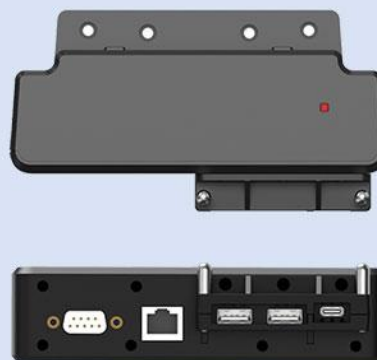

(Optional accessories)

A wide range of accessories to double your tablet's performance

Connecting Rod

(Support 360° rotation, adapting to various usage angles)

Multifunctional Docking

(Expandable RS232/RJ45/USB*2/TYPE C power port supports use without power supply)

Single-device Multi-function Charging Cradle

(Meet fast charging and desktop support functions)

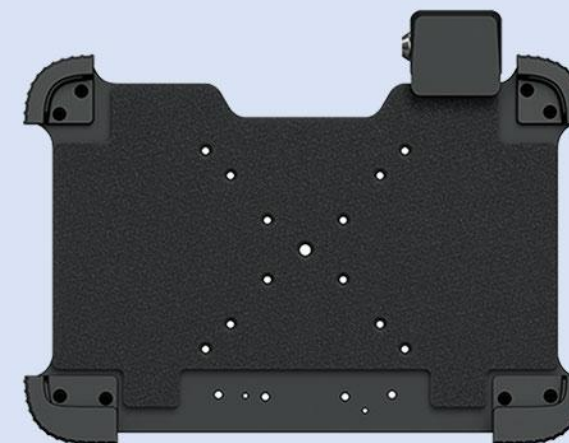

(Optional accessories)

A wide range of accessories to double your tablet's performance

Shoulder Strap

(Hands-free when moving goods)

Bracket

(The back VESA interface can be freely combined, support anti-theft lock, more secure)

(Optional accessories)

Multiple management tools

Secure encryption

Double efficiency

Boost the productivity of your frontline with our durable data collection tools.
