CRUISE2 5G

Beyond Fast
With Another New Standard

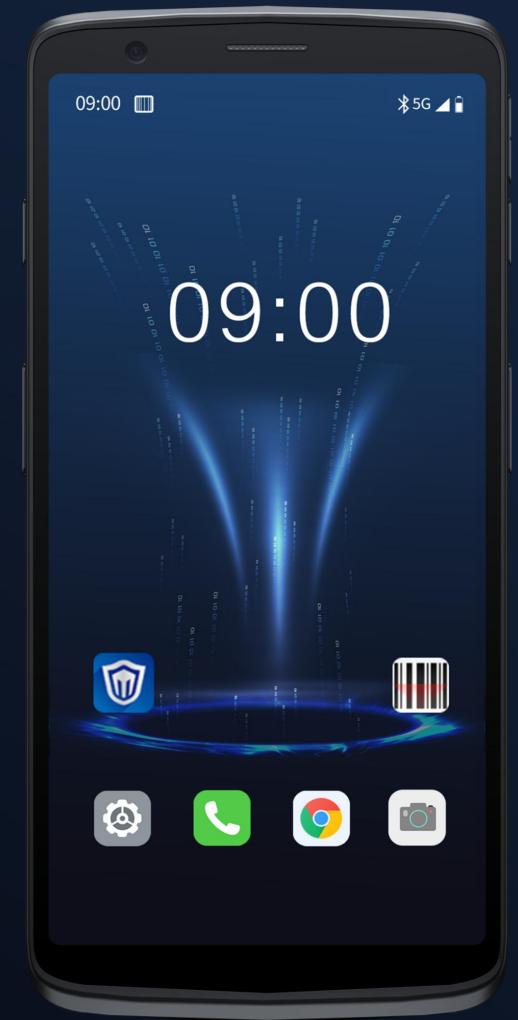

5G

Product Introduction

CRUISE2 5G has been polished which perfectly integrates the 5G speed and the performance of the whole machine to achieve a more stable connection, lower latency and larger capacity, once again renovated work efficiency.

It is suitable for manufacturing, public utilities, logistics, express delivery, retail e-commerce and other application scenarios with high requirements for low latency and large bandwidth.

Applications

**Smart
Factory**

**Production mgmt.
Production line report
Maintenance mgmt.**

**Public
Utilities**

**Inspection
Asset mgmt.
Warehouse mgmt..**

Logistics

**Pick up
Delivery**

Retail

**Store mgmt.
City delivery**

Seuic 5G Another new standard

High speed inspires work enthusiasmo

Fast
operation

Fast internet
connection

Fast code
scanning

Fast
charging

Fast
unlock

Beyond Fast Comprehensive Efficiency Improvement

Good
balance

Excellent
screen

Accurate
positioning

Loud
voice

configuration

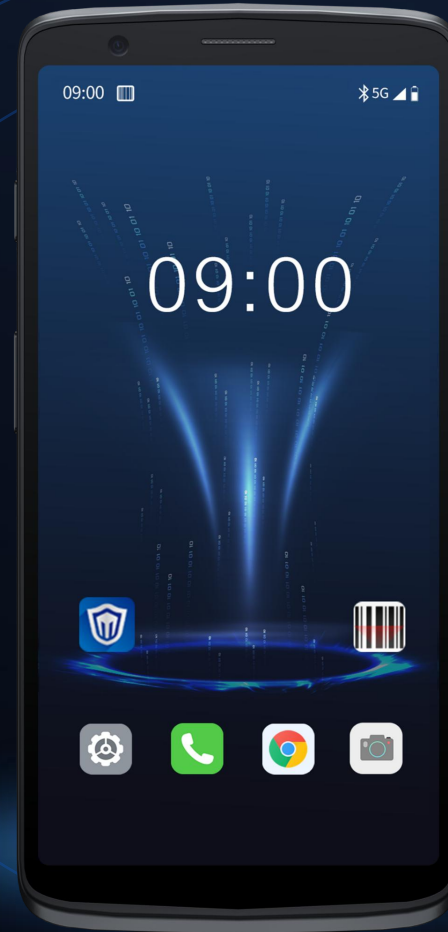

Fast internet connection

Fast running speed

Fast charging

Fast unlock

Fast code scanning

High speed inspires work enthusiasm

● Fast running speed

Qualcomm 690 high performance CPU / new generation AI computing platform / Android 11,
Smoothly operating more high-performance applications

- ✓ CPU Qualcomm 690, 8nm flagship craft. Antutu performance score is 320,000.
- ✓ AI Fusion Acceleration supports the fifth-generation Qualcomm AI Engine mobile platform and the Hexagon 692 tensor accelerator (HTA), providing more possibilities for business applications.
- ✓ Android11 Latest operating system in the industry
- ✓ 4GB+64GB / 6GB+64GB / 8GB+128GB Optinal,

Can hold more information and transmit faster, meeting more storage needs

690

● Fast Internet Connection

5G All Netcom+High speed Wi-Fi,
Upload and download instantaneous

- In the case of weak signal, 5G performance is 10% faster than similar devices
 - ✓ 5G All Netcom, High coverage of 5G frequency band at sub-6G
 - ✓ Downloaded nearly 10 times faster than 4G upgrade, In the case of weak signal, 5G performance is 10% faster than similar devices
- Wi-Fi6 Ready+2*2MIMO, nearly 3 times faster than the previous generation
 - ✓ Wi-Fi6 Ready+unique algorithms, experience a new Wi-Fi speed.
 - ✓ Support dual-band 2.4g+5g and 2*2MIMO. It can connect more band, reduce transmission interference and the signal connections more stable.

● Fast Code Scanning

Fast and accurate with no limitation

- Support minimum 3mil barcode recognition, fast read speed up to three times per second. Easy to identify dirty, damaged bar codes at field working.
- Support up to 1.5m/s fast-moving recognition. More suitable for assembly line.
- Support aim scan, precision further enhanced. Suitable for warehouse-intensive & accurate directional scanning scenarios.
- Increase four scan finder frame at crossing aimer, easily find barcode location, make job easier.

● Fast Charging

Charge 5000mAh battery in less than 90 minutes

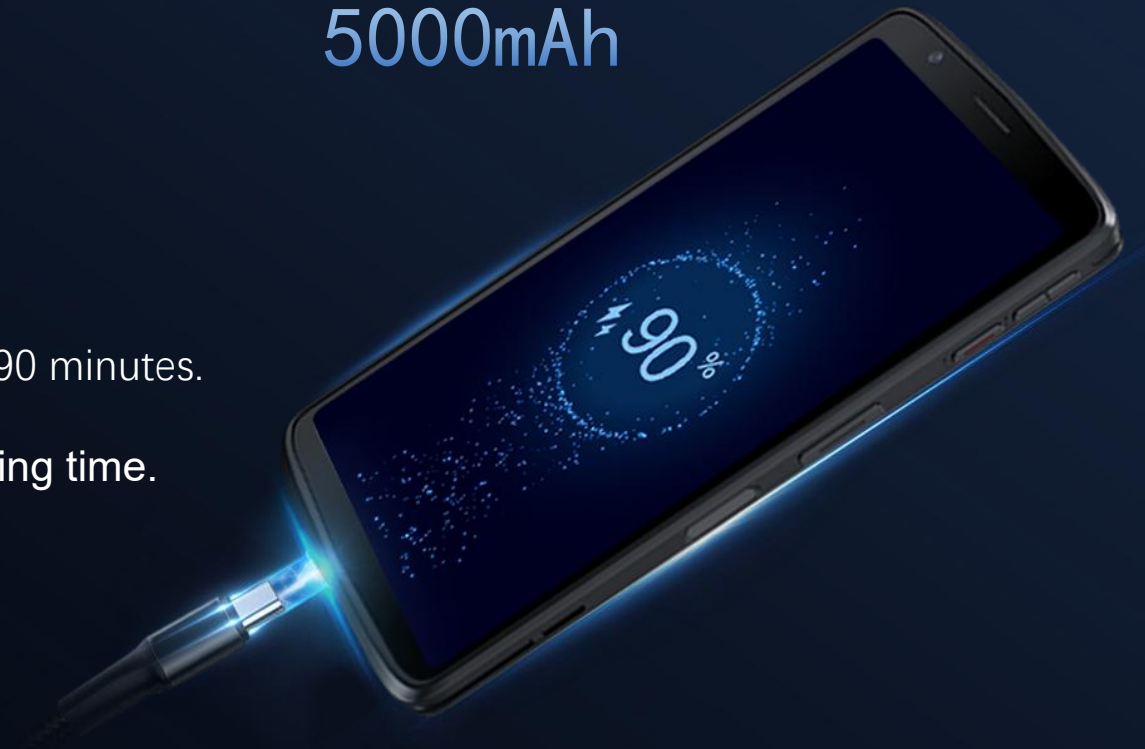

Easy Charging

- ✓ Support 27W wired fast charge(optional), Fastest charging in 90 minutes.
- ✓ Optional wireless charging, easy to use and reduce the waiting time.

5000mAh high capacity removable battery

- ✓ 12h lifetime
- ✓ Quick removable battery, support hot-swap, meeting continuous work and increase the efficiency.

5000mAh

● Fast Unlock

First side fingerprint application in the industry

- Screen activate +unlocking done by one step
- Explore efficient work in just one second.

Beyond fast, multi-dimensional improving efficiency

● Good Balance

Slim player in the 5G terminal group, aircraft design, perfect balance.

- ✓ Equipped with 6.0-inch screen and large-capacity removable battery and double high protection, it still guaranteed thin and light design to achieve a perfect balance between visual, holding and protection, makes the whole experience better, which is the best choice to enhance the efficiency.

● Excellent Screen

High-quality visual effects , Data at a glance

- 6.0-inch screen , Data at a glance
- Bright screen, visible under sunlight and strong light, and can be automatically adjusted according to the intensity of the light source, seamless switching between indoor and outdoor work
- High resolution + Incell craftsmanship, the picture is more realistic
- Multiple touch screen responses, fast sensing under gloves, wet hands, passive capacitive pens, etc , can be used as usual in all harsh scenes such as cold and rainy days

● Accurate Positioning

High-precision positioning technology

- Dual-frequency dual-channel GPS positioning technology
- The accuracy in dense building environment is improved by 1-2m compared with conventional terminals
- Effectively improve the positioning accuracy of work scenarios such as path planning and navigation

● Loud volume

Loud volume, Good sound quality, clear prompts, comfortable listening

- Loud speaker + smart power amplifier, can clearly hear the prompt even in noisy environment
- Better sound quality, comfortable listening experience

● High protection

Double protection, born with industrial grade genes

- Can reach IP67 double protection even after disassembling the battery and the whole machine.
- The whole machine has passed more than 60 reliability tests such as 1.5 meters drop, high and low temperature, etc., to meet the demand for usage in harsh environments

● Clear Imaging

Super dual-camera, taking pictures and imaging more clearly

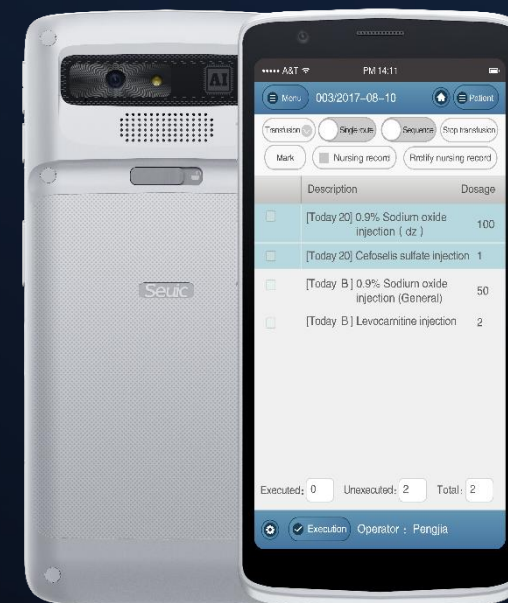

- Super high pixel, front 8MP rear 16MP, support flash shooting
- AI optimization, for industry scenarios, performance optimization, camera definition is 3 times higher than the previous generation terminal

• More selections

More configurations are suitable for many complex scenarios

- With abundant accessories, more extensive applications
- Simultaneously launch of exclusive medical models, please stay tuned for more exciting

CRUISE2 5G-HC

Medical model
6 inch large screen / high
performance / dual protection
light and easy to hold

**Smart Tools, More Durable,
More Efficient**
